Requisitos técnicos para TV

Samsung

Si dispones de un televisor Samsung de 2019 (Tizen 5) en adelante, podrás disfrutar de eFilm.

Cómo instalar eFilm TV en Smartv Samsung

Para descargar nuestra aplicación gratuita sólo debes ir a Apps, buscar eFilm Online e instalarla.

Si no aparece la aplicación y tu televisor es compatible, comprueba que tienes configurado para España la región, ya que si la tienes configurada para otro país no podrás descargarla.

Modelos soportados:

¿Y si mi modelo no es compatible?

Si tu modelo no figura entre los compatibles, puedes seguir visualizando eFilm TV en tu televisor con un dispositivo GoogleTV o AndroidTV.

Requisitos técnicos para TV

LG

La app de eFilm es compatible con todos los modelos de LG a partir del 2019 (WebOS 5).

Cómo instalar eFilm en Smartv LG

Para descargar nuestra aplicación gratuita sólo debes ir a LG apps, buscar eFilm Online e instalarla.

Si no aparece la aplicación y tu televisor es compatible, comprueba que tienes configurado la región para España, ya que si la tienes configurada para otro país no podrás encontrarla.

Recomendamos mantener el **Sistema Operativo** de LG actualizado a la versión más reciente para no tener problemas con la app de eFilm.

¿Y si mi modelo no es compatible?

Si tu modelo no figura entre los compatibles, puedes seguir visualizando eFilm TV en tu televisor con un dispositivo GoogleTV o AndroidTV

GoogleTV o AndroidTV

Cómo configurar la app en Android TV

Solo deberás dirigirte a Google Play y buscar la app de eFilm Online TV utilizando el buscador. También puedes encontrar la aplicación de eFilm Online TV para TV [aquí](https://play.google.com/store/apps/details?id=com.efilmtv) (<https://play.google.com/store/apps/details?id=com.efilmtv>).

Una vez instalada, solo tendrás que introducir tu usuario y contraseña para poder disfrutar del contenido directamente desde tu televisor.

Recomendaciones en Android TV

Asegura que tu dispositivo tiene el sistema operativo y la aplicación de eFilm Online TV actualizada a la última versión. También recomendamos conectar el dispositivo por cable para asegurar la estabilidad de red. Si no es posible, asegura que la red wifi sea de la mayor calidad posible.
